

## Sustainability Report 2024

In addition to our employees and customers, sustainability remains our central focus. We want to maintain and create comfortable workplaces for our employees, we want to inspire our customers with exceptional service and top quality, and we also want to operate sustainably and pass on the company as an important part of society to future generations.

The sustainability report, which we published for the first time in 2024 and which presented the figures from the 2023 financial year, remains fully valid with all its goals, measures, and information. However, we would like to use this supplement to present the figures from 2024 so that the report remains up to date.

### How has the employee structure changed?

#### Fructus

Total 206

Women 63

Men 143

Egma (the employees were taken over by Fructus Meran, which also organizes the entire Egma fruit auction process. The auction manager remains an exception)

Total 1

Women 0

Men 1
